

Sold Out Youth Foundation Alcohol / Drug Prevention Education Program

Dear Parents,

The Sold Out School Alcohol and Drug Abstinence Education Program is proud to work with your School District in providing Alcohol and Drug Prevention Education training for your student(s), and comprehensive Fentanyl Education Program. We will be executing the online program in your schools shortly.

As parents, we know the world our students are growing up in faces challenges that look completely different from when we were young. Fake prescription pills, street drugs, and even everyday vapes can secretly contain a deadly drug called fentanyl. Even a tiny, invisible amount can be fatal on the very first try. Because these fake pills look exactly like real medicine and are easily bought on social media apps, we need to be our children's first line of defense.

The most powerful thing we can do as parents is talk openly and honestly with our kids. Studies show that when we have real conversations about the dangers of drugs and alcohol, our children are much less likely to try them. Talking about these risks early gives them the tools and confidence they need to handle peer pressure safely.

Let's team up and be proactive in protecting our children and take action together today before a crisis happens. Please take a few minutes to look at the platforms SOYF is provided. You can log into a special parent-only online guide with critical life -saving tools at <https://soldouttv.com/parental-curriculum/> **Password parent100**. We are excited to provide this effective resource that can assist you so you can start or continue a meaningful conversation with your children.

The reason for this letter is to make you aware of the 365 online school engagement program SOYF will be making available for students, schools, students, and community. The program provides vital information on the number one killer of teenagers in our country, Fentanyl. To safeguard you and your students, we have included facts on all drugs students can be impacted by <https://soldouttv.com/fentanyl-education/>. Let's encourage and support them in choosing a healthy, drug-free future.

At the end of the in classroom presentation, we will be providing an opportunity for your students to take a three (3) step pledge to be drug and alcohol abstinent (click link below). Step three (3) of the pledge encourages your student to come home and tell you about the decision they made to choose drug and alcohol abstinence. We hope you take advantage

of the opportunity to have this important initial discussion with your students and encourage them in their decision to be drug and alcohol abstinent.

"My daughter and I watched the online program together, and discussed the content, she took the pledge immediately after finishing!! Which made for a proud mom and an equally proud student! I highly recommend the Sold Out Program." **Joan - Parent, First Flight Middle School, Kitty Hawk NC**

Sold Out's Mission is to educate, encourage, and challenge students to live a life of alcohol and drug abstinence in order to significantly lessen, if not eradicate, the number of young individuals who are dying each year from alcohol and drugs, specifically fentanyl.

SOYF engages through video lessons, we teach drug and alcohol prevention, and drug & alcohol abstinence, and critical life skills, in order for students to make informed and safe choices. The program features interactive in-school QR code posters where students can take a healthy pledge, alongside comprehensive resources and curriculum built for students, parents, and school staff. Together, we provide all parties with the up-to-date tools needed to protect our youth. Learn more at www.soldouttv.com
